

LORCH
smart welding

RENT A COBOT.

Increase your production capacity quickly and at predictable costs.

Rent a Lorch Cobot Welding Package and test it extensively before making a purchase decision. This way, you can ensure that the Lorch Cobot meets your exact requirements. In addition, renting is an ideal solution for short-term capacity bottlenecks and a shortage of skilled workers. It enables you to respond quickly and flexibly to changing market and economic conditions without entering into long-term financial commitments.

Your advantages:

Peace of mind.

Reliability through the latest equipment: Our equipment is always state-of-the-art technology.

Maintenance and repair included: You don't have to worry about a thing – we take care of maintenance and repairs.

Cost control.

Predictable costs: Use the Lorch cobot exactly when you need it. Thanks to fixed rental rates, you can always keep an eye on your costs.

No long-term investment necessary: Minimise your capital outlay and remain financially flexible.

Flexibility & scalability.

Individually agreed rental period: You decide how long you need the equipment for (at least 3 months).

Flexible adjustment of capacities: React quickly to cyclical or unexpected fluctuations in your business.

Services included with every rental:

- **Delivery, installation and commissioning:** We take care of the entire process.
- **Training of employees:** We will provide your team with comprehensive instruction and training.
- **Inspection and maintenance:** Regular inspections and maintenance work are included for longer rental periods.
